

Tabletop Automatic Capsule and Tablet Counting Machine

NTC-100

Feature

1. Double activation modes
2. Built-in made-in-Taiwan inverter
3. High torque adjusting functionality
4. Double AC motor driven mechanism
5. Strong supportive ability and mobility
6. Made of high-class SUS304 stainless steel
7. High standard hardened aluminum alloy
8. Buffering mechanism keeps bottles intact
9. Pneumatically driven capping mechanism
10. Straight bottle feeding and capping process
11. Hand wheel adjusts product height manually
12. Counting speed adjusted by the contact roller
13. Automatic digital control adjusted by bottle's height
14. Universal grippers with the adjustable torque settings
15. Security mechanism provides the safety for operators

Optional Peripheral

- Infeed Round Disk & Collecting Round Disk
- Automatic Labeling machine
- Date Coding Machine

Specification

Weight	200kg
Air Pressure	2 – 5kg
Outer diameter	30-60 mm
Size	(L)2000mm (W)1000mm (H)1300mm
Power	Single phase 100 or 220 VAC, 50/60 Hz
Bottle cap type	Any plastic cap
